Dear Loues –

Enjoyed the clippings – would it be nice to see the forward hatch like that some sweet day! I think will have one day this enough energy to clean the week to try to clean the shade out & straighten it. Would really like to get it in shape to use at least for picnic service if not for overnight guests. The downtown apt. will have to wait awhile long, I think. The lovely fine plans at

has arrived & is gracing our hearth - we do thanks you both! And everybody who comes in just raves about the walnut furniture. The favorite expression is "It looks good enough to eat" - and it does! And we thanks you-all for that too - you folks do so much for us - spoil us rotten.

EK's apt. sounds nice as can be - so glad he got the air-conditioned one - and golly how we'll be praying for a heap

of people to have something
big ripped out of their poor
bellys by EKS! I know he'll
do fine.

How wasn't that something
at the Woodlawn place! Sounds
like somebody needed a stick
of stove wood or a board
of education applied to a vital
spot! Papa Dad - B said
thanks for the tips in re the
lawn washing. He's put down
the poles like you suggested
- haven't had a hard rain
since but seems to be blowing
one up soon.

Muriel came over on Thurs. + is taking it easy - but really getting on fine. Plans to stay a couple of weeks + have Dick come here for her. We are taking it easy with her + having a good visit - She sends her love. Would love to hear from Edna.

Bill got his big lawn mower + used it yesterday for the first day - only cut 1 finger adjusting it but as he said "found it + put it back on" - the monkey!

Be sweet loves - we do love you so. They say its hot in the Valley here - but we is cool. Love - Hugs - Kiss

home - Thursday
Dear old Boy Beautiful
So glad to hear
your nice full
letter, also a card
from Edna in this
morning's mail -
It is fine that you
and Augusta Noland
have visited out
your relatives this -
that you can feel
another family of
good friends -
Mrs Noland called
and was almost
welcome in her

praise of you - Said
they would probably
be near Houston
some time this
Summer and might
go to see you - Now
don't you know how
Gusta could have
rammed you down
Mother's throat -
Trying to arrange
for her - But it just
goes to show you
what a good catch
you are considered
by mothers with
marrageable daughters
Pa & I had a good
laugh, visualizing how
you would just about
annihilat us if we
got mixed up in
your affairs - unasked

all this talk o work about your office is such fun - what is the clinic called now? o what o when will you name it?- the Dr. Elmer Key Sanders Clinic? Remember how it took Bill Cullen months to change from Suburban Gas to Cullen Gas.

An old fellow in Wyoming named Ed Eaggin - Told Bill how he made his money. But that the

most valuable
thing he (Ed. Eagan)
possessed in his
name - So Bell
splashed - cutting all
over the place -
Does Dr. Seale Harris
call his place by the
full name? answer
first looked it up &
it is so listed in the
phone book -
We sent you 2 sheets
so that your bed
could be ready for
you to rest your
weary frame upon
the very night
you passed into
your apartment -
You will see

that muriel is with
Busta & Buel. I imagine
they will take her home
and stop to see Edmund
for city. Rolling said yes.
I must live another
whole generation to
see how this new
theory about rearing
children works out.
I cannot see it. It
would not work out
in your profession.
to put the least
competant person
in any organization
in complete control
of policy making and
this preperance
control all operations

In fact, feeling with no logical foundation would lead any of us off our course I would be I still feel my duty to any of you is clearly to say what seems to me to be the best for you. and it is my duty to keep my mind open and to constantly inform my self so that when any of you want my advice I can give an informed opinion

Pa has started on the hedge quite a job.

"Sara Mrs. Tarkey lots of parties at Sara's" I wonder what is disturbing her. Maybe

the thought of Mr. F's retirement. She looks haunted - no that is not the word - maybe disturbed is more like it -

Don't it funny how many Jerry Lind heds are living there? I guess any thing that one is thinking impresses the mind whose the eye catches it - I guess we register very little that we see or hear. Like I could take or leave it.

Man alive! but you did really have a real vacation - From Dan to Bersheba - well bee thing you missed no trucks -

now you can to work-
and Lord you will
need it. Now don't
it be fun "garnering"
that is it. We shall
come rejoicing.
Bringing in the sheaves"
Pa just stopped by
and we read your letter
Denise card & Gypsy
letter. He laughed when
you said "after 5 or 6 days
you found nothing in
bustle you could live with"
Said "Guess he didn't
smell any too sweet"
Lord take you & keep
you. It has been
such fun all been
up. Now watch our
dust. We are on our
way. Luck & Love 2.12.5
