Honey Chili - ^{Sum.} How simply wonderful about the American Surgical Society! It doesn't surprise me in the least but it pleases me to end - B. & I have been saying for years that you'll be one of the 2 or 3 greatest surgeons in this country someday - and not too far off either.

So I forget - what are some things you'd like for your fast approaching birthday? I really want ideas so awful the old brain let us hear too what Emory has to offer.

B. said just what you
did in ^{the} local dealer
having to install + ser-
vice dishwasher - any
good plumber could in-
stall + charges are 10
service would be necessary
for quite a while + even
if there are dealers in
other towns bear in mind
I'll be glad to have
Bud check on arena -
have been eating baby
beef liver medium rare
once a week + feel fine
but do prefer too to have
it checked. How's your
liver - any kick.
ups? at next point 3. kitchen

Did I tell you that the
kids we've had on the
house so far are \$
\$ 31,866 - 35,000 & 32,200 -
one more contractor to hear
from. Lordy, I hope we
make the right decision
on whether or not to
do this! It's so hard to
tell what will happen -
depression or inflation
- war or not - etc. Mean-
while the driveway is
cut & the heavy big stuff
spread in it on bottom
& if the rain ever
stops they'll do same
in garage court.

Guess will make some
final decisions this week
