Sweetheart:

Your "quicke" just arrived and I already feel much better. The weekend would have seemed long without somekind of word from you, so keep sending me notes when you don't have time for longer letters. Hope your new secretary will soon be able to take some of the extra load off your shoulders. Wish I could be closer to my honey right now - maybe I could help. Jack is probably on his vacation by this time so that means the pressure will be pretty hard for you the next couple of weeks. Get all the rest you can love - I don't

want you to take any chances
even though the "kep" is a thing
of the past. Let me know when
you start operating. Oh — I
think you are so wonderful.

I want you to know I am
completely over my cold — so
don't worry about your gal.
I took Cryptocillin for about
four days and now I feel first
rate. Now about your sore throat?
That's the way my cold started so
be careful!

No doubt you have received the
sketch — it don't say you're ugly —
that's silly. You know I think
you are perfect looking from
head to toe. How could I love
every part of you so much if
I didn't think you were
beautiful — ??? ? ? ?

Gusta writes that she and Bill are planning a trip South. Will you be able to see them while they are in Bham? I told you about the silver candle sticks - they are so lovely!

Must hurry along to the mail box with this letter if you are to receive it tomorrow.

I miss you sweetheart and more so when your letters dwindle - Just to touch your hands would be divine - How long must I wait?

All my love,
Dorinda
