Later Monday
Dear E. K.

Your Monday
letter has just come.

Yes, you will
find your work
increasingly more
fun & proper as
you get onto your
proper level.

But fortunately
you are learning
from the ground
up, and you do
not realize, close as
you are to it,

How fast you are
learning -

I sure the Mothers

day corsage last night
again, and it is still
so fresh and lovely.

2- heads up stained
But the card, I never
even quote. So good
to show anybody.

How we do love
each other in this
family.

Your difficulty
is not in giving away
the dish washes, as I see it.

But finding a meeting
of Idnie's & Tom's minds.

Idnie hates to be any
trouble or expense &
Tom wants all he
can get. Well you
will do the best thing
we are sure. In
Q. K. S.

me June
can come over
I don't

3.

Mrs. Crabtree, at Roberts,
and I, as usual talked
again yesterday as we
got this stationary.

Yes, we talked about
our Dr. Sous. James
was with Dr Seale

Horris & went to West
Blacton, assured of
\$14,000 per year. At

the end of 3 months
he has lived & worked
hard & has \$3,000 on
his books, uncollected

So now he is moving
to Mulga on straight
salary with Hooker
Iron Co. He always
talks of his using

our home & setting
up here. She said
James thinks well of
some section not
infected with other
Drs like Medical
Centre section.

Also Dr. Seal Harris
said last time. He
talked to Dr. Croftree.

"Just hold on
I'll give something
in sure to give you
& break." So far no
further.

I hear the pump
working - go to see
if it is automatic
Lucy & Jose
2. 12. 8.

Home. Thursday A.M.

Dear Old Boy Beautiful
Just a hello
Do Duf - right after
a nice night, a good
breakfast. Also to use
my new stationary
and my reclaimed
pen - found on a shelf
of the desk. not lost -

I just missed drawing
a new set at the School
mas picnic. Monday
night. Miss as good as a mile
We have just
gotten out the
Drift Track maps
& find we can deliver
2 more lots up there

if Mark can sell them
Ray Malone one of
our negraes thinks
he has a prospect.

So we will try this
for size - today:

Saw ~~the~~ television
last night at Cheryl's
Supper. Still a long
way to go before we
would want one.

Workman in the
basement, now, declares
that the pump will
be absolutely auto-
matic when he leaves.

Pa always answers
with "well all I want
is my water lifted
whether I am here
or not"
