Dear Sandy:

I left Saturday - a rather
Sunday 4.17. - The plane was
late - I hurried my
luggage on board, got it on the
cabin piece and crawled into
bed, aching + shivering and
conquering. Thursday on my
first venture to the living room
I found the blossom, somewhat

described but with ribbon still
say. It gave me a nodalgyic
Tuan. Thank you again.

John Lockwood has made
his decision + goes to Memorial
July just. There is some talk
of Randall going with him.

There will obviously be some
changes and we all await
developments.

Hope I did not give
you my views at lunch last
Saturday. Take care of yourself.
As ever
S.F.
