Dear Sandy:

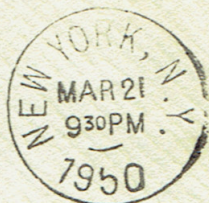

Left Saturday - a rather
Sunday A.M. - The plane was
late - I hurried my
luggage on board, got it on the
concrete piece and crawled into
bed, aching + shivering and
coughing. Thursday on my
first venture to the living room
I found the blossom, somewhat

desks called but with ribbon still
say. It gave me a moulage
Tuan. Thank you again.

John Lockwood has made
his decision + goes to Memorial
July first. There is some talk
of Randall going with him.

There will obviously be some
changes and we all await
developments.

Hope I did not give
you my views at lunch last
Saturday. Take care of yourself.
As ever
G.F.

My precious Sweetheart:

Forgive me for not writing sooner but I have a terrible cold and I am trying hard to keep going. Dr. Tillman went over my chest Sunday. He thought it would be a good idea for me to take erypticillin so with the help of #844's I manage to keep on the job - but I feel very weak. Don't worry about me honey - I'll take good care of myself. As you know it is seldom I ever get such a common thing as a cold but this time it sorta slipped up on me.

I finally located Tom and he is agreeable with your "pay one a day plan"

He is going to write you a note
to confirm it also. He seemed
to think they could use the ^{extra} money
to good advantage for buying
needed supplies etc. The fee is
O.K. in fact he seemed pleased.
Tom is definitely sure your
photometer will work with
the new cells - so don't
despair honey.

I'll try to write you
another letter tonite - In
the meantime I'm going to
~~the~~ post the sketch I
have of you. Let me know
your honest opinion of it -

Take good care of my
sweetheart. I love him best
of all.

Until later,

Love, Dorenda
