Oh Elmer Key -

Your pin is just
labeled - It was nearly
a miracle that you and
Eleanor made just this
choice - I had come
to need a spat of this
new crystal and was
not so sure what -

So this sets me up
for these nights Pat
Dinner with the
Scottish Rite & Executives
Clubs. Thank you -

Maria reminded me
last summer that "you
do not need a pin &
a neck lace both"

So I am glad your
pin is large enough
to suffice for both.

I guess I have was
teaching her to pipe down.

We just finished
writing August checks
and have \$295.72 in Bank
\$75. from City & Health Dept
will be added \$370.72. then

We have on hand &
coming \$100 to eat & run the
car. So now we are on
our way to save for Taxes
Jan. 1st & Feb. 1st. It
is clear now this will be

just thought. When
Valerie Douglas cooks
a meal she can see
what is needed in your
kitchen. We may have
it & can send it.

This mornings mail brought a boat I have had ordered for us in New York - Lin Yutang on The Hudson of America. We will enjoy it all winter.

Mrs. Fairley was in fine better yesterday - She told of the 2nd grandchild's 1st birthday, and how Jimmie Jr. was so secretive for fear "Mack" Arthur Mc. Hoynes Jr. would sense the preparations & thus spoil his surprise. How Albert Jr. is asking for more letters like she used to ask him to write - etc.

An old school friend
at Horsey's came to
our table to congratulate
me & to comment on my
hair keeping its color.

I told her I had
no idea how much
gray there is in it. That
my hair dresser has
kept it tinted for me
for 12 or 14 years.

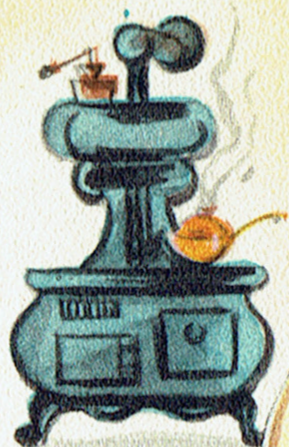

I am very proud
of my health and
shall keep on
as Pa & I are both
blessed with our
strength and the
buckling and the
youngster of you
