Home - Thursday
Dear old Boy -

So glad to have your
letter and to hear from
National boards, as you
say we were as sure
as of any thing that
other people were
attending to -

The measurements
of the steps allowed
us to visualize them
They are as wide as
our dining table &
about as our front
step - counting, bails
landing - as rises -
yes it is a new skill

added to your long list
just thinking that
maybe a course in
Jack's Tactics is to be
like a case of measles
in the V.A. in
Houston - all victims
come up with the
same story -

I had gotten Mrs.
Watefield's name -
wrong - had remembered
it - Ridgeway & I
connected it with
Gen. Matt Ridgway.
He knew families
of both names -
De Cray & Eustis.

3-

the flash flood & high
winds a few days ago
blew some of the glass
out of one of the
bay windows a few
days ago. Insurance
adjusters & Perkins
Realty - are working on
it - So to protect some
stairs - we have set
the window back in
on the steps - you
& Wayne will have
to sleep to get to
your apartment.
When you come
home - Esch nice
spell of weather

tempts us to start
out on the road. but
a little cloud in the sky
changes our minds

Jahn Cobbs raised the
figures on our cor-
poration. to \$100,000
or \$300,000 liability. but
the premium is less
by \$6 - said figures are
wild on compensation

will be off to lunch.
hair do and a funeral
in Brot - we are not
strong on funerals
but this is Oscar

Smith's brother Wallace
and we feel impelled
to go. Luck to Jose
