Dear Doctor:

VITAMINS!!! Oh honey you
are an angel to remember to
send me some vitamins. Hope
they will give me everything
I'm lacking physically -
Heavens that's asking too much
but you get the idea. Each
one of the hundred capsules will
be sorta like a kiss from you
each time I take one - One a
day for a hundred days. Then
it will be time for your next
visit - That is, if I can wait
that long.

As soon as you you come to
a decision about Pet's job -
lemme know - I'm so anxious
to know. Have you talked to

DeBakey lately? Let me know
about everything sweetheart.

The more I go out with
other people the more I want
you. I wish I never had to
date another boy. Is that
normal? It's just because I love
you so much though - in I
don't have any of that kind
of love left over for anyone else.
Honeybunchie I've just got
to marry you someday.

Must go to bed now
Sweetie thanks again for
the Dayamin -
Love,

P.S. I: LOVE YOU!
D.D.

Dorinda

Thursday morn.

Would love to come to
see you next weekend - Have 4 days off.
I sound crazy but I mean it
I miss darling - D.
