Dear Children:-

We are starting on the second half of 1951. Here is hoping that all goes well with all of us.

The Town House is an apt. building on south 20th for the personal of the Medical Center. There is a new up-to-the-minute cafeteria in it operated by Mrs Todd. It was opened July 4th. We went there for supper last night and found it very good. Friends at Britling's to day told us they went there for dinner but there were double lines a block long waiting so they came back to Britling's; just shows how much good eating places are in demand in Birmingham. We will have a new place to carry you when you come.

Letter from Gusta came Thursday; glad the furniture has arrived. Mr. Randal told me he has the bill of lading for shipping. If he has not sent it to you, Gusta, I suggest that you write him for it if you need it in the settlement for damage there.

Idene & Gusta, let us know if you have received the wood basket, pitcher, & Table to Idene, and the fire place set to Gusta. Mr. Randal shiped the table and we sent the other pieces through Jobe Rose. Hope they arrived in good condition.

Elmer Key, Harris Transfer Company tells me your furniture will be shiped Mon. or Tues. 9th or 10th. They have the data you gave me and I think it will go O.K. The crating was slowed by the fourth and a week-end coming in after they picked it up.

A friend twenty-five years younger than I am cautioned me about working; in fact, he was surprised to know that I do any of this work about the place. But he had a heart attack some time ago and is having to be very careful. He was carrying more flesh than he should and they have taken that off. I assured him that my doctor son tells me it is O.K. to work.

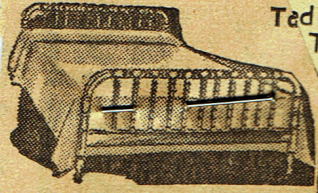

Elmer Key when you get your setty for the living room be sure it will open out and make a good bed for us to use.

Joe Price carried his father to New Orleans for a check-up. He told his father that Oschner's place got top heavy and that is why DeBakey and Champ Lyons were put out. Let that be as it may; thought it would help you to understand the situation. Our neighbor, Purvis, across the side street had a heart attack Friday morning and died instantly. He had a little job with a used car lot in Ensley and had a prospect of selling a car; he went over early Friday morning and lifted crate of bottles and the attack followed. The doctor said it was due to his excitement and elation over the job and selling a car. For several years he has been a retired fireman on account of his heart. Write us about your trip and movements in Houston.  
Love and best wishes from mother and papa. Your father
