Dr. E. K. Sanders

U. A. Hospital

Houston

Texas

Cutter
24 Gates
Forty Four
Pa.

Frank Anderson has just begun
made Pres. of W. B.'s largest bank -
a grandfather of a boy. Thrus.
Mrs. William Francis Cutten

Honey - For I forget - B. said
be sure you're OK as to
ties & tubes for car - present
stock is last to have
crude rubber etc - every body is
stocking up, it seems.

So glad you had a
good trip home. It's just wonderful
that you're close enough to
get back pretty often - I wish

we were. no news on house -
still waiting for prices - we gather
tho that the large amount of
store work we want on outside
is tries expensive so may

cut it down a ² lot rather than cut down on space.

Have heard nothing more from Irene re herself or clothes dryer - writing her today.

Clara Bierly's sister, Mrs. Lochenmacher of Houston has been here visiting + called for your address - had lost it - will probably call you - his w I think 2nd Nat. Bank + they live in River Oaks.

The Korea news is awful - where would you stand if this thing did just loose. Lord, I hope you'd not have to get into another one. B. says they would probably start a

major conflict³ till the fall crops
are harvested anyhow.

So glad your photometer
is doing well - you're a good
engineer! Our Charlie (radio
repair) found that your
amplifier was in no way
responsible for the periodic
disappearance of sound while a
record was playing - it was the
record player. All fixed now -
it has such a lovely tone - &
we can turn it way down
soft & it's just as clear as
a bell - we just love it! And
you for giving it to us.
Are you coming up this
summer, honey? We'd

①
certainly like to see you.

Shack is all moved +
business is going on as usual.

It's just below the fine place -
quite close to stone wall + has
the sweetest view. We've had a
few hot days + nights but damn
near froze up there 2 nights ago.

Dr + Mrs. C. were here for the

hot spell - in to Tues. - never fails
They asked about you - both seem

fine. Oh - I want to give blood to

Red Cross + they'd only take $\frac{1}{2}$ pt

because my hemoglobin was 79-80.

Said eat more meat + liver once a

week. Should I take pills or shots

two - How do you feel? Be sweet -
you're a elegant guy. All our love
B + S
