Dear Old Boy Beautiful

I know you have
guessed it, by all the
things we have
unearthed. yes it is
the old secretary - oak
desk. We emptied that
and are having the
Randalls steady and
clean that up. "Strip it
down" is their term.
Also the ~~the~~ table & some
oak rockers to bring
up front together with
the Oserton - mahogany
nursers rockers. Thus

we will not miss the
furniture Gustie now
wants. Nor any you
or Idue might want
at any time.

We are off to lunch
with Caspers Club at
the W.A. Whittings &
then the mountain
to Ochmit Club with
Connie Spurgeon.

We are o.k. I I know
you are busy as a
shot cat.

Dear Jones -

Tomorrow is
our morning day & this
is just a note to say
Hi & we love you. We
are pretty tired chillun
but very happy & sorta
tired at all we've gotten
done these last few
days. Tonight we cleaned
up all the floors & put
a final coat of wax on
them - they are so
shiny & beautiful - the
whole house is so lovely
& so often tonight as we
worked I thought of the
joy it will be to
have you all come to

See it & be in it.

Well - the Hill people &
Myrtle aren't signed &
sealed yet but in any
case I still think we're
OK as is.

The new prospect on
2745 does sound hot.

So glad the Huntsville
trip was fun - sounds
like Papa was a good
boy - by trying hard.
If the horse aren't the
right size or color, Marva
gal - send 'em back.

To sleep now & to
dream of our new home -
a dream come true. Thanks
to you two for my good
raising & all the love you
give us. all our love
