Later Monday
Dear E. K.

Your Monday
letter has just come.

Yes, you will
find your work
increasingly more
sure & proper as
you get onto your
proper level.

But fortunately
you are learning
from the ground
up, and you do
not realize, close as
you are to it,

How fast you are
learning -

I sure like mothers

day corsage last night
again, and it is still
so fresh and lushy.

2-heads up staid
But the card, I never
even quote. So go
to show anybody.

Have we do these
each other in this
family.
your differently
is not in giving away
the dish washes, as I see it.

But finding a meeting
of Idnie's & Tom's minds.
Idnie tries to be any
trouble or expense &
Tom wants all he
can get. Well you
will do the best you
we are sure. In
2, 16, 8.

So I don't
can come over
the June

3.

Mrs. Crabtree, at Roberts,
and I, as usual talked
again yesterday as we
got this stationary -
yes, we talked about
our Dr. Sous. James
was with Dr Seale
Horris & went to West
Blaetone, assured of
\$14,000 per year. At
the end of 3 months
he has lived & worked
hard & has \$3,000 on
his books, uncollected
so now he is moving
to Mulga on straight
salary with Woodroff
Iron Co. He always
talks of his using

any home & setting
up here. She said
James Thurik's need of
some section not
infected with other
Drs like Medical
Centre section.

Also Dr. Seal Harris
said last time. He
talked to Dr. Croftree.

"Just hold on
I'll give something
if sure to give you
& break". So far no
further.

I hear the pump
working. So to see
if it is automatic

Home. Thursday A.M.

Near Old Bay Beautiful
Just a heavenly

Day - right after

a nice night, a good
breakfast. Also to use

my new stationary
and my reclaimed

pen - found on a shelf
of the desk. not lost -

I just missed drawing

a new set at the School

manus picnic. Monday
night. Miss as good as a mile

We have just
gotten out the

Drift Track maps

& find we can deliver
2 more lots up there

if Mark can sell them
Ray Malone one of
our negraes thinks
he has a prospect.

So we will try this
for size - today:

Saw ~~the~~ television
last night at Church
Supper. Still a long
way to go before we
would want one.

Workman in the
basement, now, declares
that the pump will
be absolutely auto-

matic when he leaves.

Pa always answers
with "well all I want
is my water lifted
whether I am here
or not"
