My dearest Sweetheart

The past few days I have missed you so much. As I have told you before there are times I think I cannot wait any longer to see you - but then I get busy and new interests rush in and the mood passes again. Your wonderful letters help to keep me informed about your every day doings but they can not substitute for having you near me - - - because there is no substitute for you! I love you very much my darling.

Yes we are getting some "coolth" up here. Yesterday the temperature was down around fifty degrees but today the mercury is soaring up to the

2/

upper seventies. We haven't had much rain, in fact, the weather has been ideal for weeks. I'm glad you have an air-cooled apartment, honey - you're strictly an airconditioned man all over. ha! Oh, I wish I could hug you just once. Hum
Daylight saving time has been discontinued until spring so now we have to eat dinner by electric lights!

I saw Hughie G. in the elevator today and he looks fine but I noticed that he is really getting quite gray around the temples. Are you getting gray sweetie? Has anything changed about you? Write me everything about you.

Sandy, are you learning to cook or is the colored woman still taking good care of you? I know you probably won't answer half of all the questions I have asked but it is fun to ask them. I forget to answer your questions too.

Cousin Ernest thinks I must be living a good life — He says I have never looked prettier. He likes my hair the way I'm wearing it now. It's cut rather short but thicker and very curly. I bought a new expensive black velvet dress not long ago. I hope you like it! I wore it out to dinner once while the folks were here. Every man I passed turned to look at me. Oh yes, I wear a white wool stole with it too! — in your pearls! I'm telling you all this sweetheart

4/
'cause I know it makes you feel
proud of me. Now I need a nice
dress-coat but I really can't
afford it if I go to Europe.
Oh, there are so many things
I want. Guess I'm just plain
normal! ha

If you happen to get any extra
vitamins from a detail drug man
would you please give your
honeybunchie some. The ones you
sent me last winter kept me from
getting sick, I feel quite sure.
I didn't have a cold all winter.

Well honey - haven't much
news to tell except I miss you
in that's not news. Jean Price
said, to tell you she's still
waiting for a letter from you.

I love my baby Dandy and
you know I'm yours.
Love and kisses, Douda
