Dear Sandy -

You certainly did add a lovely thing to Leney's wardrobe when you - all sent the legging set. It is so lovely and soft & most becoming to her. We all love it and certainly appreciate your sending it.

We are in the middle of house improvements & have many more to go. The house is just the age where it should be completely redecorated, but perhaps we can manage that in the spring. Right now we have put in new kitchen counter tops and are

finishing up the bedroom over the garage & partly finishing the other bath. Both will be a tremendous addition to the house - so come on up & spread out.

The Bischoffs next door are moving in this week-end. The house is beautiful & I believe it will be nice having some one else out here. No doubt we will have to get used to the idea & to each other, but we're looking forward to it.

Many thanks again for the beautiful gift -

Love from all -
Idene
